

# Yale Cancer Biology Institute

## Seminar Series spring 2017

Date	Location	Time	Speaker	Affiliation	Title
1/23/2017	HOPE 216	2:00 p.m.	Claudio R. Alarcón, Ph.D.	Laboratory of Systems Cancer Biology, The Rockefeller University	Roles of RNA Modifications in Normal Homeostasis and Cancer
1/30/2017	HOPE 216	3:00 p.m.*	Jim Lynch, Ph.D. et al.	Agilent Technologies-Special Seminar	Advanced Solutions for Metabolism & Metabolomics Research
2/6/2017	HOPE 216	2:00 p.m.	Mandar Muzumdar, M.D.	Koch Institute at MIT, and Dana-Farber Cancer Institute	Investigating Genetic and Environmental Contributors to Pancreatic Cancer
2/13/2017	HOPE 216	2:00 p.m.	John Maciejowski, Ph.D.	Department of Cell Biology and Genetics, The Rockefeller University	Chromosome Shattering and Hypermutation from Telomere Fusion
2/20/2017	HOPE 216	2:00 p.m.	Chao Lu, Ph.D.	Laboratory of Chromatin Biology and Epigenetics, The Rockefeller University	Chromatin Dysregulation as Driver of Oncogenesis
2/27/2017	BRADY B-131**	3:00 p.m.*	Madeleine Oudin, Ph.D.	Koch Institute at MIT	Roles of the Extracellular Matrix in Metastasis and Drug Resistance
3/6/2017	BRADY B-131**	2:00 p.m.	Georgios Karras, Ph.D.	Whitehead Institute for Biomedical Research	Protein-Folding Chaperones Shape the Consequences of Human Genetic Variation
3/13/2017	BRADY B-131**	2:00 p.m.	Yansheng Liu, Ph.D.	Institute of Molecular Systems Biology, ETH Zurich	Quantifying the Protein- Level Control of Genetic Diseases and Cancers

\*Please note time change

\*\*Please note location change

**Yale** CANCER  
CENTER

A Comprehensive Cancer Center Designated  
by the National Cancer Institute
